

There is no
how much
or knowing.

Patience may require nothing
but some good cover,
so rather than the full procedure,
chase the draw
plus whatever is equally urgent.

Critiquing the decision is needed.
How manned
an analysis,
of intelligent and successful relations;
be kept and brief.
Be done and on.

Then, the stimulus
gives rise
to a burst.

Up now,
gifted potential.
Awake your remarkable features.

They were thus the mode of action
upon nerves,
The play of liberated fibers.
The snow
cold for me,
and like you,
returning.
